

The affordable Access to Top-class Sound

So, you like to plunge into a suspense filled game every so often, but don't want to miss out on quality sound effects? And you want the latest box office movie hit on DVD to sound just right? Or maybe you just want the sound quality of your MP3s to be as good as gold? If so, the Aureon 5.1 Fun is just right for you, offering affordable, first-class sound quality.

The Aureon 5.1 Fun offers everything you need to achieve perfect sound. With up to 6 (5.1) channels for connecting 2, 4 or 6 loudspeakers and top-quality recording and playback at up to 48 kHz. Optical digital inputs and outputs guarantee lossless recordings and the right connection for DVD, DAT or MiniDisc recorders. And to ensure perfect clarity in gaming entertainment, all popular 3D-sound standards are supported – from EAX 2.0/1.0- A3D and I3Dl2 to Direct Sound 3D and Sensaura 3D.

Even in terms of software, you will find yourself fully equipped with the Aureon 5.1 Fun. For example, the first-class DVD Player provides a true-to-life cinematic environment on PC. Musicmatch Jukebox makes creating and editing MP3s a breeze. And Emagic Logic Fun is a versatile multi-talent for professional audio and MIDI recording. With these tools in your hands, you begin enjoying exquisite sound right away. 24-month warranty, phone and e-mail support, and direct hardware replacement from TerraTec for defective products are all, of course, included in the price.

Technical Details

Compatibility

- DirectSound / 3D
- A3D 1.0
- EAX 1.0, EAX 2.0
- MacroFX
- EnvironmentFX
- MultiDrive
- ZoomFX
- I3DL2
- General MIDI (GM)
- MPU-401
- SoundBlaster / Pro
- AC'97
- PC 2001
- PCI Specification 2.1, 2.2
- PCI Bus Power Management Interface Specification 1.0

Digital Audio

- 8/16 bit recording & playback at up to 48 kHz (mono/stereo)
- Extended full duplex stereo for recording & playback (mono/stereo)
- Record and playback all audio sources
- MultiDrive
- MacroFX
- EnvironmentFX
- ZoomFX

Audio Mixer

- Individual level controls for all audio sources

MIDI/Joystick Interface

- Direct-Input Acceleration
- Analogue / digital joystick interface
- MPU-401 compatible (UART mode)
- SoundBlaster compatible MIDI interface

External Connections

- Digital output, optical, 44.1 / 48 kHz (TOS link)
- Digital input, optical, 44.1 kHz, 48 kHz (TOS link)
- 3 line outputs, stereo (3.5 mm)
- Line input, stereo (3.5 mm)
- Microphone input, mono (3.5 mm)
- MIDI / joystick interface (IBM 15 pin Sub-D)

Onboard Connections

- CD audio input, stereo (MPC3)
- Aux In, stereo (MPC3)

Drivers

- Windows 98 SE / Me
- Windows 2000 / XP

ControlPanel

- Windows 98 SE / Me
- Windows 2000 / XP

Software

- Software DVD Player
- Musicmatch Jukebox
- Emagic Logic Fun
- Free- & Shareware

System requirements

- One free PCI 2.1 compatible PCI slot and one other free slot
- Intel Pentium III or AMD K6 III 500 or higher
- 64 MB system memory
- Screen resolution of at least 800 x 600, 16-bit color
- CD-ROM drive / DVD-ROM drive (for the DVD Player)
- 50 MB free hard disk space
- Windows 98 SE / ME with DirectX 6.0 or later or Windows 2000 / XP

Art.No.: 6050
EAN-Code: 4017273660509
Warranty: 24 months
